Richard,

If you can come for 10:00, that would be great since we already have an internal EE meeting planned (as Scott pointed out....thanks!) Our meeting is in B1D.

Gordon

I am taking Tuesday off, but am free all times on Wednesday through Friday. I would say pick a Wednesday time, and I will be there.

Just an FYI that we have an internal EE meeting on Wednesday from 10:00-11:00, so perhaps it would be logical to incorporate this information into that meeting (if Richard is available at that time).

Richard,

We have been working on the wildfire smoke-influenced ozone exceptional events for 9/2/17 and 9/4/17. Amber has developed a summary PDF of the 2 events, attached.

Summary: Washoe and MA/CT, as well as others, have WF-O3 EE demos approved/concurred using "Tier 2+", with Q/d
